## quotes

*"I think the beauty in Winnie Brave's music is the beauty of two long-time friends making music together."*

~ Tom Power, CBC radio

*"Amy's studious, hard-working phrasing, poignant tremolo, and cord-chopping willingness on her Gibson resonate out through the listeners like waves of goosebumps. And, Brad, a bass guy who works the upper reaches of that neck like a lead dude, while thumping and snaring time toe-and-heel like you've never seen. He's real busy and really good at all that. The adoring looks they exchange could be poured on pancakes."*

~ Tom Harpole, journalist
